WAIMAUKU SCHOOL

OPENING DOORS TO LIFE'S JOURNEY

SCIENCE ROADSHOW

April 2019

Dear Parents and Caregivers,

The **Science Roadshow** is coming to our school on Tuesday 11 June for the Year 5-8 classes. We need your permission and for you to cover the cost of $7 for your child to attend.

It always creates a genuine buzz for science for the students and they always learn new concepts through the interactive exhibits or presentations. The preferred method of payment is through Kindo, but the money and permission slip can also be sent to the school office with your child.

More about the Fonterra Science Roadshow… (from their website)

The Science Roadshow is a touring exhibition of demonstrations and hands-on interactive exhibits teaching students about science and technology. It provides an exciting and stimulating blend of science-technology education and entertainment. Each year the Roadshow tours with an entirely new programme of over 60 hands-on exhibits, two informative and entertaining demonstrations and various resources/activities for schools. It is aimed at school children in years 5 to 9 (8-13 years old).

Kind regards,

Rob James

✂.....
